

BAROLIFT®

Hole Cleaning Aid

Description BAROLIFT is a specially-treated, chemically inert and temperature stable synthetic fiber for use as a hole cleaning and suspension aid in HDD, Minerals Exploration and other non-oilfield drilling applications.

Applications/Functions

- Enhances suspension properties and carrying capacity of drilling fluid without increasing viscosity
- Can be utilized in wireline coring environments
- Reduces loss of circulation or seepage to formation
- Effective as drilling fluid component or as a sweep material
- Enhance suspension properties of casing pack fluids

Advantages

- Does not effect chemistry of drilling fluid
- Mixes easily and uniformly
- Easily removed by screened solids control equipment
- Does not increase viscosity
- Non-fermenting

Typical Properties

• Appearance	White Fibrous Material
• Fiber length, inches	0.5
• Specific gravity	0.91

Recommended Treatment

- ***As additive in water-based fluid for HDD applications***
- One half to one 3/4-lb bag of BAROLIFT per 300 gallons of drilling fluid
- One half to one 0.34-kg bag of BAROLIFT per cubic meter of drilling fluid
- ***As a sweep material in Wireline Coring applications***
- One half to one 3/4-lb bag of BAROLIFT per 10 gallons of sweep fluid
- One half to one 0.34-kg bag of BAROLIFT per 38 liters of sweep fluid

Mixing Requirements And Equipment Compatibility

- Remove all screens or strainers that are located in the fluid system prior to mixing and introduction into the circulation system
- Product concentration and usage may be limited due to tolerances and restrictions of downhole tooling and specialized bottomhole assemblies

**Mixing Requirements
And Equipment
Compatibility
(continued)**

- Removal of ball and spring float assemblies are recommended as fiber may accumulate in these areas and cause float to malfunction
 - Orifices used in bit and/or reamers must be 1/4-inch (6.35 mm) to prevent plugging
-

Packaging

BAROLIFT® is packaged in a cardboard box containing ten 3/4-lb (0.34-kg) bags.

Availability

BAROLIFT can be purchased through any Baroid Industrial Drilling Products Distributor. To locate the Baroid IDP distributor nearest you contact the Customer Service Department in Houston or your area IDP Sales Representative.
